50-year-old Anthony Johnson of Carmel is accused of fondling three little girls during a pool party on August 12th. Those who molest children often look and act just like everyone else. Abusers can be neighbors, friends, and even family members. According to Darkness to Light, 90% of child sexual abuse victims know their abuser, such as in this case where the girls knew Anthony as “Mr. Tony” or “Tony”.

It is unrealistic to think that a child should be responsible for fending off sexual advances by an adult. As adults, it is our responsibility to protect children. Therefore, we must proactively make choices to learn the facts about child sexual abuse and talk about it as a community to create positive change.

To learn how you can make a difference in our community and protect children from abuse, register for our next Stewards of Children® Training on October 3, 2017 at 5:30pm in the Chaucie’s Place Training Room. This training is provided to the community free of charge through grant funding.
